The monsters in the dark forest will try their best to destroy you -- and, you need to He. You can deploy a variety of towers or towers in the tower slots to increase the defense of the dark forest; Wooden arrow, magic tower, poison, and there are so many options. If you just start playing this game, then you are on the right page. In this Idle Defense: Black Forest guide, we'll teach you all the fundamentals of the game. Plus, with the help of our Idle Defense: Black Forest Tips, cheats, and strategies, you'll be able to progress quickly. So, without further ado, let's dive! Idle Defense: Black Forest Guide – The goal is to protect the crystal from being destroyed by the dark forest monsters that appear at each stage. In the top center of the screen, you can keep an eye on the stage timeline – if you achieve defeat or the monsters succeed in invading the crystal, the game will ask you to relive or play again from the starting point of the stage. As you progress through the stages, you'll face more powerful monsters from the dark forest with resistance and healing abilities; and to defeat them, you'll need to deploy more powerful towers. For example – Wood Arrow Tower attacks would be useless against monsters that have shield capability because their shield resists this type of attack. But the attack of the Magic Tower Plus can break their shield. Then you will have to switch to another type of tower based on the monsters you are facing. Unlocking new tower slots:- In the battlefield area, there are many plots you can buy with gold. More plots mean you can deploy more towers and increase defense. To buy a land, you tap on the untapped plot - > then spend the gold. After that, a building symbol will appear on that land, which states how much time is left for the building to complete. You're going to have to wait until then. Once the construction is completed, the player can deploy tower. Building the Tower: – To build or deploy a tower, you must purchase it first. In the footer menu, tap the build button to open the tower store; it has two tabs – the common guide and the limited-time guide. In the common tab, all unlocked towers are available all the time. And in the limited-time tab, the game offers towers at a discounted price for a limited time. You can update offers by tapping the update button. Spend gold or diamond coins and choose a plan to deploy. If you have towers in the inventory, tap the bag option on the lower left side and tap the tower you want to place. After selecting the tower in the bag, tap the place button and choose a plot to deploy it. It takes a few seconds to install a new tower in a storyline. Selling a tower: – You can sell tower for gold coins. If deployed, tap your storyline and tap the gold coins button. If not, then go to inventory/bag, the tower you want to sell -> tap the gold coins button. Removing the tower from the plot: – If you don't want to sell a tower – instead pack it in the bag and tap the slot -> tap the packing button. Packaging. will remove this tower from this storyline and send it to the bag. Upgrade and evolution of a tower: – To improve tower performance on the battlefield, you can raise your level and once you reach the maximum level, you can evolve it to further improve. The upgrade costs gold coins. And evolving requires a duplicate tower at the same level. For example – To evolve a 2-star Plus Magic Tower at maximum level, you'll need another 2-star Magic Tower or the same attribute tower at the maximum level. Tap the tower you want to evolve (it must be at its maximum level) – then tap the evolve button. After that, select a duplicate tower that has the same attributes; maximum level, stellar level. And then choose evolution. Evolve Upgrade increases the level of stars, raises the statistics of the tower; maximum level, damage, range, etc. How to unlock new towers or towers in idle defense: Dark Forest? The player can discover new towers or towers evolving. For example – you can discover the wooden ghoulish arrow tower by evolving tile arrow. Evolve the Wooden Arrow to discover more magic arrow or tower. Evolve the Tile Tower with the Magic Tower Plus to discover the Stone Cannon. Try different combinations. When you choose to evolve, the game asks you to choose an evolution. Demons: - Demons have special attributes and bonuses; DMG, Gold Winnings, Skill CD, Lucky Point, etc. You can unlock a demon once you have all the relics. You can get the demonic relics from the invocation portal. After that, go to the bag - items - tap the relic - summon. Then deploy the demon to the demon team. So that would be all in this idle defense: Black Forest guide for beginners. Let's take a look at our top Idle Defense: Black Forest Tips, Cheats and Strategies.
